

Informal Note:

12/9/10 – Received call / question from [redacted] NY SIB regarding IAFIS submissions for Secure Communities. Can the FBI filter the IAFIS submissions meeting the SC criteria to submit only those transactions that have convictions? Response: The SIB can submit a paper to the CJIS APB for formal processing and if recommended by the committees and approved by the FBI Director then CJIS would comply with the approved request. (This would be filtering and currently our IT processes do not allow filtering of searches to US-VISIT).
